SUMMARY

4th-year B.Tech (CS — AI & ML) student with hands-on experience building AI/ML applications and full-stack systems. Developed production-grade RAG and computer-vision pipelines using LLMs, diffusion models, and modern web frameworks. Seeking a software engineering or ML internship to apply and grow these skills in a real-world environment.

PROJECTS

RAG System for Legal Question Answering | Jan 2025 – Mar 2025

GitHub: github.com/GeedipalliVasu/Legal-Rag

- Built a Retrieval-Augmented Generation (RAG) pipeline using Qwen 3-4B and FAISS to answer queries on Indian constitutional articles, achieving retrieval accuracy of ~88% on a 500-article test set.
- Designed and integrated a full-stack app (React, Express.js, MongoDB) with sub-2-second average query response time.
- Implemented document chunking and embedding strategies that reduced irrelevant retrievals by ~30% vs. naive approach.

Agri-LLaVA: AI-based Plant Disease Detection & Progression Prediction | Aug 2024 – Nov 2024

GitHub: github.com/GeedipalliVasu/Agri-LLava-Project

- Trained a CNN classifier (Flask backend) to detect healthy vs. diseased leaves across 10 plant species, achieving 91% validation accuracy on a 3,000-image dataset.
- Integrated Stable Diffusion (runwayml/stable-diffusion-v1-5 via Diffusers) to generate visual projections of disease progression, enabling farmers to take preventive action 1–2 growth stages earlier.
- Built an interactive chatbot UI supporting real-time image uploads with diagnostic results returned in under 3 seconds.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Web: React.js, Express.js, HTML, CSS, REST APIs

AI / ML: Machine Learning, RAG pipelines, LLMs, Transformers, CNNs, Diffusion Models (Stable Diffusion)

DevOps & Cloud: Docker, Kubernetes, Git, GitHub

Databases: MongoDB, MySQL

Tools: Jupyter Notebook, VS Code

EDUCATION

B.Tech — Computer Science & AI/ML —

Keshav Memorial College of Engineering, Hyderabad | 2023 – Present

Intermediate (PCM) — Narayana Junior College | 2023 (85%)

SSC — Narayana Olympiad School | 2021 (100%)

EXTRA-CURRICULAR ACTIVITIES

- Hackathon Coordinator — organized and mentored 3 college-level hackathons (50+ teams), evaluating project feasibility and guiding teams on technical implementation.
- Head of Sports Club — planned and executed intra-college tournaments for 200+ student participants across 5 sports.
